which Lexus each participant matched

Daily volume

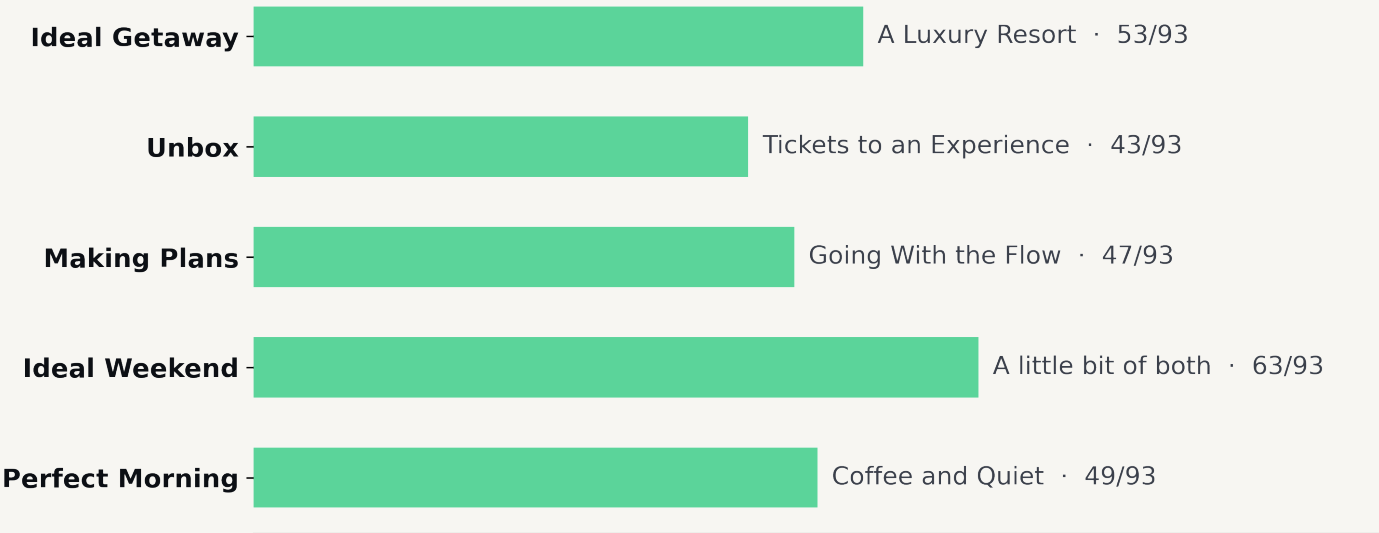

sessions recorded per day (Central Time)

Lexus ES (“Flow” energy) dominates at 36 of 93 results (39%), with RX (“Regeneration”) second at 23 (25%) — together 63% of all Texas matches. Volume peaked on Aug 6 (43 sessions) and tapered through Aug 9. Activity clusters between 9 AM–6 PM Central Time — consistent with a daytime activation.

How Texas Answered the Quiz

Most common answer per question

The Texas profile skews toward comfort and balance: “A Luxury Resort” getaways (53/93), “Tickets to an Experience” over physical goods (43/93), and a planning style led by “Going With the Flow” (47/93). The strongest single signal is Q4: 63 of 93 chose “A little bit of both” for their ideal weekend — a balanced-lifestyle audience, which aligns with ES/“Flow” being the top result.

DATA QUALITY NOTES

(1) 7 of 93 sessions show durations over 10 minutes (max ~1.8 hrs) — kiosk sessions likely left open; excluded from the median. (2) Source timestamps were recorded in India Standard Time (IST, UTC+5:30) and have been converted to US Central Time (Texas, CDT, UTC-5) — a 10.5-hour shift back — for the “Started” column in the appendix. (3) All 93 rows carry a complete Texas region tag and full geolocation; no untagged or ambiguous rows were present in this dataset. (4) The source file has no city-level field, so no city breakdown is reported.

All Texas Sessions

All 93 Texas sessions, chronological (Central Time). Durations over 10 minutes shown in hours. Q1 Getaway · Q2 Unbox · Q3 Plans · Q4 Weekend · Q5 Morning (answers abbreviated).
